### 1. Identification

#### Product identifier

Product name Glomax LL

Chemical name Kaolin

CAS number 91704-41-1

#### Details of the supplier of the safety data sheet

Supplier Imerys  
 618 Kaolin Road  
 Sandersville, Georgia 31082

#### Emergency telephone number

Emergency telephone 1 (800) 424 9300 CHEMTREC

National emergency telephone number 1 478 553 5801

Distributed by:  
 Laguna Clay Company  
 14400 Lomitas Ave  
 City of Industry, CA 91746

### 2. Hazard(s) identification

#### Classification of the substance or mixture

Physical hazards Not Classified

Health hazards Not Classified

Environmental hazards Not Classified

#### Label elements

Hazard statements NC Not Classified

Precautionary statements May cause damage to lungs through prolonged or repeated exposure via inhalation.  
 Do not breathe dust.  
 In case of inadequate ventilation, wear respiratory protection.  
 Dispose of contents/containers in accordance with local regulations.

Supplemental label information Review the Safety Data Sheet for additional safety, health, environmental, transportation and classification information as it relates to this specific product and its ingredients.

Contains Kaolin (Calcined)

### 3. Composition/information on ingredients

#### Mixtures

Kaolin (Calcined)	90-100%
-------------------	---------

CAS number: 92704-41-1

#### Classification

Not Classified

## Glomax LL

<b>Titanium Dioxide</b>	<b>0.1 - 0.9%</b>
CAS number: 13463-67-7	
<b>Classification</b>	
Carc. 2 - H351	

The Full Text for all Hazard Statements are Displayed in Section 16.

### 4. First-aid measures

#### Description of first aid measures

<b>Inhalation</b>	Remove to fresh air, seek medical attention if necessary.
<b>Ingestion</b>	If ingested, give plenty of water and provide medical attention. Do not induce vomiting and never give water to an unconscious person.
<b>Skin Contact</b>	Wash with soap and water.
<b>Eye contact</b>	Rinse immediately with plenty of water. Get medical attention if any discomfort continues.

### 5. Fire-fighting measures

#### Extinguishing media

**Suitable extinguishing media** The product is non-combustible.

#### Special hazards arising from the substance or mixture

**Hazardous combustion products** None known.

#### Advice for firefighters

**Special protective equipment for firefighters** Use protective equipment appropriate for surrounding materials.

### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

**Personal precautions** Use proper respiratory and person protective equipment. MSHA/NIOSH or OSHA/NOISH respirator should be used if required to control personnel exposure to allowable levels. Spilled materials may cause slippery conditions when wet. Care should be exercised when walking on spills or floors or concrete pads. Avoid inhalation of dust.

#### Environmental precautions

**Environmental precautions** Avoid discharge into drains or watercourses or onto the ground.

#### Methods and material for containment and cleaning up

**Methods for cleaning up** Flush spilled material into an effluent treatment plant, or proceed as follows. Vacuum, pump or scoop spilled materials into contrainers for reclaim or disposal. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

**Reference to other sections** See Section 11 for additional information on health hazards.

### 7. Handling and storage

#### Precautions for safe handling

**Usage precautions** Avoid generation and spreading of dust. Avoid inhalation of dust.

## Glomax LL

### Conditions for safe storage, including any incompatibilities

**Storage precautions** Store in a cool, dry location is recommended. Spilled materials may cause slippery conditions when wet. Care should be exercised when walking on spills or floors or concrete pads.

### 8. Exposure Controls/personal protection

#### Control parameters

#### Occupational exposure limits

##### **Kaolin (Calcined)**

Long-term exposure limit (8-hour TWA): OSHA 5 mg/m<sup>3</sup> respirable fraction

Long-term exposure limit (8-hour TWA): ACGIH 2 mg/m<sup>3</sup> respirable fraction

Long-term exposure limit (8-hour TWA): OSHA 15 mg/m<sup>3</sup> total dust

A4

##### **Titanium Dioxide**

Long-term exposure limit (8-hour TWA): OSHA 15 mg/m<sup>3</sup> total dust

Long-term exposure limit (8-hour TWA): ACGIH 10 mg/m<sup>3</sup>

A4

OSHA = Occupational Safety and Health Administration.

ACGIH = American Conference of Governmental Industrial Hygienists.

A4 = Not Classifiable as a Human Carcinogen.

#### Titanium Dioxide (CAS: 13463-67-7)

**Immediate danger to life  
and health** 5000 mg/m<sup>3</sup>

#### Exposure controls

**Appropriate engineering controls** Use exhaust ventilation, if required, to maintain dust concentration below regulatory limits.

**Eye/face protection** Wear approved side shield safety glasses.

**Hand protection** Use general purpose gloves as necessary to protect against drying of skin in case of prolonged usage. Follow good hygiene practices to include washing hands with soap and water.

**Hygiene measures** Wash hands thoroughly after handling.

**Respiratory protection** If respirator use is required, use of a MSHA/NIOSH, OSHA/NIOSH approved respirator is recommended in compliance with applicable respiratory protection legislation.

### 9. Physical and Chemical Properties

#### Information on basic physical and chemical properties

**Appearance** Powder.

**Color** White.

**Odor** Odorless

**pH** Aqueous suspension pH range is 5.0 to 8.0 depending on the specific product.

**Melting point** Not determined.

**Initial boiling point and range** Not applicable.

**Flash point** Not applicable.

## Glomax LL

<b>Evaporation rate</b>	Not applicable.
<b>Other flammability</b>	Kaolin is not combustible.
<b>Vapour pressure</b>	Not applicable.
<b>Vapour density</b>	Not applicable.
<b>Auto-ignition temperature</b>	Not applicable.
<b>Explosive under the influence of a flame</b>	This product is not combustible or explosive.

### 10. Stability and reactivity

<b>Reactivity</b>	No specific reactivity hazards are associated with this product.
<b>Stability</b>	Stable under normal temperature conditions and recommended use.
<b>Possibility of hazardous reactions</b>	None known.
<b>Materials to avoid</b>	None known.
<b>Hazardous decomposition products</b>	None known.

### 11. Toxicological information

#### Information on toxicological effects

**Toxicological effects** This product is not toxic (oral, dermal, or inhalation).

#### Skin sensitisation

**Skin sensitisation** This product is not known to cause skin sensitization.

#### Carcinogenicity

#### **Carcinogenicity**

This product contains titanium dioxide, a naturally occurring impurity, in a concentration greater than 0.1%. In the IARC Monograph on the Evaluation of Carcinogenic Risk to Humans, Volume 93 published in 2010, IARC concluded that titanium dioxide is possibly carcinogenic to humans (Group 2B). Based on the IARC conclusion, this ingredient is classified as a Category 2 Carcinogen - (Warning - Suspected of Causing Cancer). IARC concluded that there is inadequate evidence of carcinogenicity in humans because there was no statistically significant increase in cancer in the human studies. In addition, the presence of lung tumors in test animals was only observed at extreme dust concentrations (250 mg/m<sup>3</sup>) that caused probable overloading and impairment to the rat lung, again in a highly sensitive test species. Therefore, titanium dioxide is listed as a Category 2 carcinogen in the ingredients section of this SDS although IMERYS does not classify this product as a carcinogen based on the entire weight of evidence associated with the TiO<sub>2</sub> epidemiology studies, because the naturally occurring titanium dioxide in this IMERYS product is not made from the sulfate and/or chloride product process which was used in the referenced animal studies, and because the extreme dust loading associated with the lifetime animal study is not realistic in the workplace.

### 12. Ecological Information

**Ecotoxicity** The product is not expected to be hazardous to the environment.

### 13. Disposal considerations

## Glomax LL

### Waste treatment methods

**Disposal methods** Disposal of waste material in accordance with all local, State, and federal requirements.

**Waste class** If the product becomes a waste material, under RCRA (40 CFR 261), as manufactured and shipped, it would be classified as a non-hazardous waste.

### 14. Transport information

**General** The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, DoT).

### Transport hazard class(es)

Not regulated.

### 15. Regulatory information

**Regulatory Status** The raw material for calcined kaolin is "kaolin" CAS#1332-58-7). Kaolin is generally recognized as safe (GRAS) under the FDA in accordance with 21 CFR 186.1256. Additionally, kaolin is established as a component of the uncoated or coated food-contact surface of paper and paperboard in accordance with 21 CFR 176.170 (aqueous and fatty foods) and 21 CFR 176.180 (dry foods).

### US Federal Regulations

#### **SARA Section 302 Extremely Hazardous Substances Tier II Threshold Planning Quantities**

This product does not contain ingredients subject to the reporting requirement.

#### **CERCLA/Superfund, Hazardous Substances/Reportable Quantities (EPA)**

No RQ Assigned

#### **SARA Extremely Hazardous Substances EPCRA Reportable Quantities**

This product does not contain ingredients subject to the reporting requirement.

#### **SARA 313 Emission Reporting**

None of the ingredients in Section 3 are included in the SARA 313 Chemical List.

#### **CAA Accidental Release Prevention**

This product does not contain ingredients subject to the reporting requirement.

#### **SARA (311/312) Hazard Categories**

This product is subject to the reporting requirements of SARA 312 at a threshold quantity of 10,000 pounds. Acute / Delayed.

#### **OSHA Highly Hazardous Chemicals**

This product does not contain ingredients subject to the reporting requirement.

### US State Regulations

#### **California Proposition 65 Carcinogens and Reproductive Toxins**

This product contains trace levels of one or more naturally-occurring materials known to the State of California to cause cancer, birth defects, or other reproductive harm.
